Congratulations on deciding to ask the **BIGGEST** question in your relationship!

As **PROPOSAL EXPERTS** we helped organize many romantically special proposals for our loved-up couples.

Our tips should help you with the little details to make the **PERFECT PROPOSAL**

PREPARE AHEAD OF TIME

Remember to make your proposal preparations ahead of time.

Check the weather forecast on the day of the proposal; as weather conditions can change.

Call to confirm any bookings and reservations 24-hours prior to the proposal day; you don't want to leave anything to chance.

PRO TIP

As the saying goes..."It's better to prepare to fail, than to fail to prepare".

LOCATION

Choose a location that has a personal significance to the both of you. Whether that be a local landmark or a place where you had your first date.

Get contact details of the person in charge at the venue or location, this will be helpful should you have any questions prior to the proposal.

PRO TIP

Make sure to find out if the venue or location needs a permit or any special requirements.

PHOTOGRAPHY TIME

As the phrase goes..."If it's not on camera then your friends and family can't watch".

In modern times, everyone is on social media, so having a professional photographer will definitely elevate your proposal to a new level.

It will be a special memory you both can look at with your children in years to come.

PRO TIP

Make sure you see previous work of the photographer and videographer.
